Build Your Own Motorcaravan

By: John Wickersham
One way to become the proud owner of a motorcaravan or camper van is to design and build it yourself. Not only can you create a distinctive holiday home, but you can also control the cost. Whether you want to fit out a van, renovate a camper; revive an old model or build one from scratch, this manual will show you how. It gives hands-on explanations about electrical systems, water supplies, storage ideas and saving weight when working with wood. All is revealed in this practical book.

"Holds your hand through every process of creating a camper"

The Caravan Manual (4th Edition)

By: John Wickersham
Servicing, maintenance and improvements
First published in 1993 and having sold over 75,000 copies, this fourth edition of the Caravan Manual contains completely revised text and many new illustrations. As well as guidance on maintaining older caravans, it includes details about the very latest models. There's new information on caravan weights, the use of public weighbridges, and related legal issues, along with electronic and computerised wiring systems in cars. There are major updates to the chapters on chassis, running gear, body construction, gas and all electrical details. This essential manual describes all the vital maintenance tasks and repair work that keeps a caravan in tip-top condition.
