FFTNU5 M5 THREADED T NUT FOR WOOD

FFTNU6 M6 THREADED T NUT FOR WOOD

FFTNU8 M8 THREADED T NUT FOR WOOD

## SIKA CLEANERS AND PRIMERS

Sika 208 cleaner for tools Removes uncured Sikaflex Technique sealants from Glass, metal brushes and tools. SIKA208C250 250ml aluminium flask. SIKA208C1L 1 Litre

**Sika Primer** - 206GP is a black, UV Blocking, moisture curing liquid primer, specially formulated for the treatment of glass & transparent GRP bond faces in direct glazing work, prior to application of Sika polyurethane direct glazing adhesives. It is also used on areas of bare metal to prime and inhibit corrosion for the bond surface.

SIKA206GP250 250ml aluminium flask.

SIKA206GP1L 1Litre aluminium flask

**Sika Cleaner** - 205 is an alcoholic solution containing a bond-activating substance for cleaning and activating bond faces prior to bonding. SIKA205

**Sika Aktivator** is a cleansing and activating agent specifically designed to clean and give improved adhesion. SIKAAKTIV

## SILICONE SEALANT

White high modulus silicone sealant used for sealing shower rooms, bathroom plastics, vents, rooflights, heater flue terminals, with fungicide for kitchen and shower room

Clear high-grade product we use in production when installing slide valves, gauges and hatches or other accessories to Water tanks.

Size 300ml cartridge.

SIL310C SILICONE SEALANT (CLEAR)

SIL310W SILICONE SEALANT (WHITE)

## ADHESIVE SEALANT

### SIKAFLEX 221

Single part polyurethane adhesive sealant. The professionals choice. Use to bond on roofs, panels, battens, doors, anything requiring bonding or sealing to anything else. Widely used on solar panel installations. All directly bonded windows and windscreens use Sikaflex. Full bond after a few hours, flexible & resistant to aging and weathering, over-paintable gives a very strong bond. Manufactured to ISO 9001 quality by SIKA. Available in Black, Grey & White. For externally visual fixing/sealing use 512 white. size 300ml cartridge.

SIKA221B SIKAFLEX 221 ADHESIVE SEALANT (BLACK)

**Sika Primer** - 209 is a black pigmented liquid of low viscosity. It is used to prime painted surfaces and plastic substrates (GRP ABS Polycarbonate ) prior to bonding with Sikaflex products. SIKA209P250

## ADHESIVE SEALANT SIKAFLEX 512 CARAVAN

A new sealant with all the qualities you would expect from a Sika product. Specially formulated for the sealing of joints, cappings and the installation of accessories on caravans. UV stable non yellowing formulation ensures visible sealant on joints stays white. Very similar properties to 221 but improved bond strength and cure times. Manufactured to ISO 9001 quality by SIKA. C.A.K. highly recommends this product.

SIKA512CVN SIKAFLEX 512 CARAVAN ADHESIVE SEALANT (WHITE)

## BUTYL SEALANT SIKALASTOMER

Sikalastomer 710 butyl sealant is a high quality non setting sealant used for a variety of joints in caravans and motorhomes. It is especially suitable for those situations where there is the possibility of future disassembly, such as edge trim on motorhomes, caravans and boats, windows, rooflights and airvents etc. Due to its very sticky non-setting flexibility it is ideal for re-sealing of edge trims that have been sealed with ordinary non-setting mastics which dry out. Available in black, grey & white, size 300ml cartridge.

SIKA710B SIKALASTOMER-710 BUTYL SEALANT (BLACK)

SIKA710G SIKALASTOMER-710 BUTYL SEALANT (GREY)

SIKA710W SIKALASTOMER-710 BUTYL SEALANT (WHITE)
